

PLANS FOR THE FALL

By Gordon Jones

We have decided to hold the **Fall Meeting on Sunday 20th October 2019 at 2pm**. Your calendar and schedule do indicate an earlier date, however we feel that the fall meeting before Thanksgiving events is out of order. The minutes of the Spring Meeting 2019 are attached.

It is important for members to attend as we have business to transact— not least the election of the Executive for 2020— if we do not reach the required Quorum then we can not transact any business.

After the meeting we will have an afternoon tea— sandwiches cake and cookies with tea and coffee.

On Thursday October 17th 7-9 PM - **Emergency Preparedness Seminar-Are You Prepared?**

Please join us and Donna Clark, Co-ordinator with the Office of Emergency Management for a fun and informative evening on various emergencies that City has faced and what we can do to ensure we are prepared for the unexpected. This informative session will help plan for the unexpected and provide personal preparedness in the case of a home evacuation, power outage or even another ice storm!

On Monday 21st October Short mats go down. We will be able to commence indoor bowling immediately after the Fall Meeting. For 2019 Winter and 2020 Spring-this year we hope that we will have some organized competition, subject to members showing interest. All members should be aware that we have a year round club and the facilities are available for activities through the winter. The recently started Wednesday morning Tai Chi classes can continue through the winter. Other organized activities will also be welcomed. We should look to members that play bridge to regularly come together as well we can have other activities that can be accommodated.

Short Mat Bowling

Short Mat Bowls is an indoor version of lawn bowling played on a 45 foot long x 6 foot wide mat with regular lawn bowls, and a yellow jack. The Jack is set to a length chosen by the player or team who has the mat.

Short Mat is played as Singles, Pairs, Triples or Fours, - the same as full sized play.

It is ideally suited to play in the Clubhouse, played with an obstruction in the middle centre of the mat, (bowlers are forced to draw around it, honing their drawing skills). For those that have not tried it, please do!

THANKSGIVING HOLIDAY TOURNAMENT

MONDAY 14TH OCTOBER
