

WILLOWDALE LAWN BOWLING CLUB

Bowler Expectations: Step One

10 members per Session- Practice or Singles

The following protocols, developed by the Ontario Lawn Bowls Association, will be implemented during Step One Guidelines and legislation of provincial and local health authorities will be followed at all times.

- Pre-schedule when you would like to play using [SignUpGenius](#); do not just show up and expect to play.
- The Locker Room will not be open at this point but if your bowls are stored there a Safety Officer will allow members one at a time to retrieve. Bowls can be stored in the Clubhouse after play and should be well labelled.
- Arrive no more than fifteen minutes before your scheduled time, and leave promptly when your scheduled practice time concludes.
- Practice physical distancing by staying a minimum of two metres away from each other at all times. Use a face covering if you are unable to maintain two metres of separation.
- Use your own bowls and jacks. If you don't own bowls, please contact the board. Club bowls can be borrowed for the season. Two jacks can be used if designated jack placers are assigned. Jacks are to be left in marked un-sanitized area after play.
- Bring a towel to use in place of a mat.
- Racks not to be used.
- Visitors and non-members are not allowed onto the grounds. Do not bring them with you to your scheduled bowling time slot.
- The clubhouse is closed, except for washroom use. One person per washroom. If you wish to use the washroom, please knock. If it is occupied, please step back and wait. Only one person per washroom will be allowed to wait in the clubhouse.
- The water fountains are unavailable and the kitchen is closed, so please bring your own water.
- Take home your own recycling and waste. This includes water bottles, used masks, latex gloves, food and anything else you bring into the facility. If you bring it in, please pack it out. The only waste you should leave behind are used sanitary wipes and paper towels used in the washroom.
- If you are feeling unwell, regardless of the symptoms, stay home.
- Do not:

- ✓ Share equipment.
- ✓ Shake hands or high five.
- ✓ Visit with other people; stick to your assigned rink and maintain six feet of physical distance.
- ✓ Access closed spaces or equipment. This includes the locker room, the storage room, and benches and seating areas around the greens.
- ✓ Loiter in the parking lot before or after you have finished bowling.
